A CURE FOR GRAVEL.

A Complaint and Painful Complaint—A Sufferer You May Confide In.

It seems to have been reserved for Dr. David Kennedy, of Rondout, N. Y., to accomplish, through his preparation widely known as Kennedy's Favorite Remedy, what others have failed to accomplish. The subjoined letter will be found of vital interest to sufferers from gravel and to the general public.

Dr. D. Kennedy, Rondout, N. Y., March 20, 1884.

Dear Sir: Let me tell you frankly that I have never been partial to proprietary medicines, as I believe the majority of them to be nothing better than methods of obtaining money from people who suffer from ailments ready to catch at any hope of relief. They are moon cheats and delusions. But your Favorite Remedy I know by happy experience to be a totally different thing. I had been a sufferer from gravel for years, and had resorted to many untried physicians for relief, but no permanent good came of it. About three years ago your Favorite Remedy was recommended to me. I can give you the results in a sentence: I tried it and it cured me completely. I am confident it saved my life. You can use this letter if you think best.

Yours, etc., NATHAN ACKLEY.

Captain Nathan Ackley was for a long time connected with the Canal Department, office in Albany. He is well known and writes for no purpose but to do good to others.

A man who has been afflicted with Gravel, Liver, Kidneys, and digestive organs, Kennedy's Favorite Remedy has fairly won its high reputation. Write if desirable to Dr. David Kennedy, Rondout, N. Y.

To Whom It May Concern.

Warning & Mustard would respectfully request all those indebted to them by note or book account to settle the same on or before the 1st day of December, 1884, without further notice.

HOLSTEIN CATTLE!

Over thirty years records made by cows in this herd, which averaged 14,212 lbs 5 oz per year, at an average age of 4 1/2 years. In 1881 our entire herd of mature cows averaged 14,164 lbs 15 oz. In 1882 our entire herd of eight 3-year olds averaged 12,338 lbs 9 oz. On April 1st, 1884, TEN cows in this herd had made records from 14,000 to 18,000 lbs each, the average being 15,008 lbs 6 3/4 oz. We milked through the year ending June 1st, five mature cows, the entire lot averaging 15,021 lbs 1 1/2 oz. Not one of these records has ever been equalled with an equal number of cows by any herd.

BUTTER RECORDS.

Nine cows averaged 17 lbs 5 1/2 oz per week. Eight heifers 3 years old averaged 13 lbs 4 1/2 oz per week. Eleven heifers 2 years old and younger averaged 10 lbs 8 oz per week. The above records are a sufficient guarantee of superiority. This is the class of cattle with which I found a herd.
